14. Discussion and Possible Action Regarding Pursuing the Establishment of Ordinances. Mayor Youngblood discussed with council that she had contacted the cities attorney Justin Lewis to discuss the possibility of council doing additional work to establish the ordinances based on samples for other cities. Mr. Lewis stated that it would end up being the same amount of work and his costs would remain the same because each city has their own ordinances and any changes made would then need to be reviewed to make certain they met the requirements by the law. He stated that it was his opinion that we would be better off establishing our own and not combining or confusing ordinance from other cities. After additional discussion, the council requested that the city secretary contact Mt. Calm and request a list of their ordinances just for review. Mayor Youngblood also stated that Mr. Lewis said that he was willing to work with the city and payment of the 7500.00 could be spread out possibly over a couple of budget years. Crystal Pustejovsky made the motion, which was seconded by Rick Reed to authorize the city attorney, Justin Lewis, to review and begin working on our ordinance book. **Vote: Unanimous. Motion Carried.**
