

NO APPOINTMENTS REQUIRED & OPEN 7 DAYS A WEEK

We treat all illnesses and injuries that are not life-threatening in patients over 6 months. Our scope of care ranges from cough, cold, and flu to lacerations and staples for wound care. We can also manage conditions such as other viral illnesses, UTIs, earaches and infections, rashes, toothaches, and more! We are a great alternative for treatment when injury or illness is not severe enough to require a visit to the ER or when your primary care physician is unavailable.

Rapid COVID, flu, strep, RSV, urinalysis & mono testing onsite
